PROFESSIONAL SUMMARY

Motivated **BCA Distance Learning Student** from **Graphic Era Deemed University** with a strong foundation in **Core Java, Advanced Java, Java Swings** and **MySQL**. Hands-on experience in building desktop GUI and web-based Java applications using **JDBC, JSP, and Servlets**. Developed 5 projects independently. Passionate about backend development and eager to start a career as a **Java Developer / Software Trainee** in a growth-oriented organization.

EDUCATION

Bachelor of Computer Applications (BCA)

Graphic Era Deemed University, Dehradun
2023 – 2026

12th (Senior Secondary) · CBSE

Shri Chandrabadni Public School
2023

10th (Secondary) · CBSE

Shri Chandrabadni Public School
2021

TECHNICAL SKILLS

- **Programming Language:** Java (Core & Advanced)
- **Database:** MySQL
- **Backend Technology:** JDBC (CRUD Operations), Servlets
- **UI / Web Technologies:** Java Swing, JSP, HTML, CSS, JavaScript
- **Tools & Server:** Eclipse / NetBeans, Apache Tomcat, Git & GitHub
- **Core Concepts:** OOPs, DBMS, Data Structures, MVC Architecture

PROJECTS

Vehicle Rental Organization (Project Summary)

- Developed a full-stack **Vehicle Management System** using **Java (Swing)** and **JDBC** to automate vehicle registration, insurance tracking, and fitness certifications.
- Engineered a dynamic **Dashboard** with real-time analytics to monitor fleet availability, booking trends, and upcoming maintenance deadlines via **MySQL**.
- Implemented a user-centric **Booking Portal** featuring multi-criteria search filters, automated rental cost calculation, and a simulated payment gateway. Optimized data reliability by designing a relational database schema to handle complex links between vehicle specs, customer profiles, and transaction history.

Tech: Core Java, Java Swings, JDBC, MySQL

EliteEvent Manager (Summary)

- **Developed a GUI-based Event Booking System** using **Java AWT** to automate banquet hall reservations, featuring real-time input processing and event-driven architecture.
- **Engineered an automated billing engine** that integrates multi-tier service packages, guest-count logic, and a **18% GST taxation module** for accurate financial summaries.

Logic Heavy: Event Listeners, AWT Layouts, Real-time Financial Algorithms, Input Validation.

SOFT SKILLS

Problem Solving | Logical Thinking | Teamwork | Quick Learner | Attention to Detail
